Subject: Draft Proposal to Agencies - Glenborough Vapor Intrusion Prevention Plan
Attachments: Draft Proposal to Agencies - Draft Glenborough Vapor Intrusion Prevention Plan.pdf; Draft Vapor Mitigation Monitoring Plan.pdf

Hi Lynn – Per our discussion yesterday, attached is the draft AR proposal on how to prevent vapor intrusion into any Glenborough structure above risk thresholds, including the skeleton of a monitoring plan. This would apply to all phases of Glenborough, including C29 and C41. You mentioned that you wanted to discuss it with Larry and Daewon, so I am copying them on this e-mail.

We would like to schedule a call with you and Larry Bradfish to discuss several topics that appear to have suffered from mis-communication over the past couple of weeks (including Oversight Consent Decree and Area 40 ROD requirement). Can you check your and Larry's calendars for availability for a 60 minute call today or Monday-Wednesday next week?

Please note, while we are providing these documents to you via e-mail, if you have questions or comments, please call me and we can schedule a time to discuss. We believe that a conversation regarding questions and comments will be more useful than e-mail or letter responses.

Thanks! Chris
